# MADE BY HAND, LOCALLY

## Choose your finish

- Unfinished. Left unfinished, mahogany will weather to a soft, silvery grey that is completely maintenance-free. Our own unfinished chairs have been sitting outside since 1985 — and yes, we're still using them, and they still look good.
- Clear seal. This option preserves the natural reddish tones of the wood, without making it look shiny. To keep this look, you will need to recoat the pieces annually (although you might get away with doing it less often if you are able to store the pieces indoors over the winter months). We use Benjamin Moore® ARBORCOAT Waterborne Clear Waterproofer, which is a specially formulated mildew resistant coating that extends and enhances the natural color.
- Stains and paints. For our solid colors, we use Benjamin Moore® Arborcoat Exterior Stain Color Collection. Choose from our 2018 color selections, or provide us with the color number of your choice.

## Our guarantee

Our outdoor furniture is designed and crafted to last. Our warranty covers defects in workmanship and construction for a period of two years. If a defect is found during that period, we will either repair or replace the item. Center of the World will determine whether the piece will be repaired or replaced. If repair is deemed the best solution, we will determine whether the piece should be returned to our shop or another for repairs.

Customers should inspect furniture upon receipt and refuse delivery if a defect is discovered. If a defect occurs later in the warranty period, the customer should return the piece for repair or replacement. Upon completion of the repair, Center of the World will return the item to the customer.

## Our commitment to the environment

Our furniture is from sustainably harvested, local hardwoods. Domestic hardwoods have been endorsed by the USDA as a preferred green building material, due to responsible harvesting methods practiced by the American hardwood industry, and minimal transportation requirements compared to imported woods. In every stage of our business, we strive to minimize our impact upon the environment. We have been certified as a Green America Approved Business.

## Our commitment to the community

Center of the World Woodshop has an active role in the community — we sponsor and organize an annual 5K Race and local history presentations, have produced local history materials, host an annual celebration of local authors, and have been a major driving force behind New Troy's Community Center, providing hundreds of staff hours and leadership every year since its inception.

## Care for your outdoor furniture

While furniture designed for the outdoors can be left in the elements year-round, you can take steps to prolong the life of the furniture and finish. If at all possible, store indoors or cover with a tarp during cold winter months. Protecting it from direct sunlight is also beneficial.

## Don't see what you want? Let us design something for you.

Terry Hanover has been designing custom furniture since 1976. Contact us to arrange an appointment (in person or by phone) to discuss your ideas and needs with him. Within a few days, you'll receive a design and quote. A shop drawing (provided after we receive your deposit) gives you an opportunity to approve all of the details before your table goes into production.

Design fee \$75, payable in advance

## Ready to place an order?

A 50% deposit will get us started on your project, with the balance due on completion. Our turnaround is about 12 weeks, not including delivery.

## Blanket-Wrapped\* Shipping

We personally deliver to locations within a 100-mile radius of our southwest Michigan shop. For most other destinations within the continental United States, we contract with Uky Furniture Delivery. Uky trucks pass through our region every 2-3 weeks; time to delivery is 2-5 weeks (Montana, Wyoming, N. & S. Dakota, Nebraska, and Iowa are serviced less frequently). Delivery fees are determined by Uky based on distance, value, and size of the shipment. When Uky handles a delivery, our customers pay exactly what Uky charges us. We do not profit from deliveries.

\*Deliveries to Hawaii or Alaska must be crated.

# Mahogany is naturally weather-resistant

Left unfinished, mahogany is a beautiful, natural red (above), which quickly attains the silver patina characteristic to this wood.

Weathered mahogany is virtually indistinguishable from weathered teak. But here's one big difference: cost. Mahogany weathers as well as teak — for about 1/3 of the cost.

Above, unfinished mahogany after 1 season outside. Below, after **29 years outside!**

# Stag Run Outdoor Dining Collection

2

Our exclusive collection features the Old World technique of pinned mortise & tenon joinery.

Handcrafted using mahogany (shown here with Cabot Exterior Furniture & Decking Oil Mahogany Flame transparent stain).

Table can be made in custom sizes, with leaves, or to accept a patio umbrella.

A Terry Hanover design

# Stag Run Seating Collection

Relax like you deserve it. This chair works as well kicking back with your feet up as it does pulled up to the dining table.

Handcrafted using mahogany. Shown with Cabot Exterior Furniture & Decking Oil Mahogany Flame transparent stain.

Table can be made in custom sizes.

A Terry Hanover design

# Silverback Adirondack Chair & Ottoman

4

For the ultimate relaxation. Coupled with our ottoman, this chair functions like a chaise lounge.

Handcrafted in mahogany (shown here unfinished) with screwed and plugged joinery.

A Terry Hanover design

## KDAT yellow pine

KDAT pine, shown here natural (no stain or sealer) on our Rolltop Loveseat Bench

Sometimes, top of the line isn't what you need, but that doesn't mean you don't deserve quality.

In this case, our choice of materials is the highest grade of KDAT\* yellow pine, selected for its long-lasting resistance to termites and decay. These pieces utilize stainless steel fasteners and powder coated swivels.

Like mahogany, this wood can be left unfinished. In this natural state, the wood begins with the soft tan color shown at left, and over time will weather to a silvery gray. Or we can extend your furniture's life with a clear sealer, stain or paint as shown on the following pages.

\*KDAT stands for Kiln Dried After Treatment. KDAT lumber has all the same weather-beating durability as traditional treated wood, but with the added bonus of being kiln dried.

# Adirondack Swivel-Glider, pine

An adventure in comfort.

Chair glides and swivels smoothly. Ergonomic curves.

Matching square table has optional drink holders.

Shown two-tone, with Kona and Greystone stains.
